Showroom & Internal Training

SLUMBERCARE SHOWROOM - A superb selection of quality beds on display for retailers to view and select from.

INTERNAL TRAINING

At SlumberCare, we are committed in keeping all staff completely informed of the company's products, new developments, designs and techniques. We believe it is vital that our staff should know their product inside and out, literally!

Our sales team are responsible for arranging and conducting over thirty training sessions every year for retail store owners, managers and their staff. This ensures that front line retail sales consultants understand and appreciate the total features, benefits and advantages afforded by SlumberCare bedding products. In turn, they are then better equipped to confide accurate information and advice to customers.

INTERNAL TRAINING - Damian Pearce - Sales Manager conducting a training session for internal staff.

History - The SlumberCare Story

SlumberCare opened its manufacturing operation in Muriel Street, Bayswater on the 6th November 1995, with a total of five people including the owners, Linda and Stuart Gardiner.

Our aim was to produce eight beds a day. Our objective was to offer, in every aspect, a better and more personalised service above that of any other bedding manufacturer in Western Australia.

The concept proved successful and product demand increased in dramatic proportions.

In December 1996, SlumberCare moved round the corner to Raymond Avenue, Bayswater where the available factory space doubled that of Muriel St.

As orders continued to escalate at an unprecedented rate, we decided to build our own factory premises in Radium Street, Welshpool. The move to this location took place in June, 2000. Today, after three building extensions, SlumberCare now operates from a factory that exceeds 6500 sq. metres in size, and produces over 250 pieces of bedding every working day.

CARE FOR YOUR FAMILY

Our health and well-being should be of a major concern to us all. An important part of developing a healthy lifestyle includes how well we rest when at sleep. SlumberCare's "Genuine Orthopaedic" bedding has been created because a staggering 85% of Australians do, or will, suffer from a back disorder. And, as we spend almost one third of our lives in bed, it makes good sense that we should be concerned and cautious, well advised and informed, when choosing a bed for either ourselves, or family members.

IT'S HOW YOU SLEEP THAT DIRECTLY EFFECTS HOW YOU LIVE

The New Vogue Orthopaedic collection features the unique "Profile Coil™" spring system, providing a firm but contouring support with minimal partner disturbance. SlumberCare then add "Ortho-Tec™" to support the lower back lumbar area, along with full edge support and high quality urethane comfort layers, to provide a "Healthier Nights Sleep".

THE SOPHISTICATE

A sumptuous gentle bed with premium quilting, a deep indulgence foam and latex pillowtop supported by high resilient urethanes.

THE OPULENCE

Medium/firm feel with high resilient urethane support layers, and a pillowtop of convoluted urethane, latex and wool.

THE COUTURE

This unique one sided mattress (non flip) features the award winning "Spinal-flex™" urethane zoned pillowtop, providing contour and comfort.

THE CHARISMA

Deep comfort layers of convoluted urethane and wool providing a premium non-pillowtop feel.

THE PASSION

Gentle pillowtop with wool on a high resilient supportive mattress.

THE FLAIR

Medium/firm convoluted comfort layers with high resilient support.

Genuine XL Range

The XL Range of beds has been specially designed to provide EXTRA support, comfort and re-assurance for the larger person, or those who feel they need it.

- International standard Compu-tec™ spring system.
- Contour support distributors™ firm up the spring unit to ensure a firm support to the comfort layers.
- Double edge support to ensure no roll out.

- Extra ortho-tec provides stronger orthopaedic support to the lower back lumbar area.
- Double timber rails in the base to supply a sturdier foundation and reduce partner disturbance.

THE CHAIRMAN OF THE BOARD

The ultimate in a luxurious firm bed containing latex wool and the highest quality urethanes.

XTRA SUPPORT LUXURY

High resilient support with a luxury latex and wool pillowtop.

XTRA SUPPORT COMFORT

- Deep comfort layers of convoluted urethane and wool.

XTRA SUPPORT

Gentle pillowtop on a high resilient firm mattress.

XTRA FIRM - High resilient support with convoluted comfort layers.

SlumberCare Commercial Range

RESORT LUXURY

A superior comfort Zip and Lock ensemble. When zipped together, a King size bed is formed. On separation, two extra length (92 / 203 cm) single beds are provided. The Resort Luxury ensemble has a flat, even surface eliminating any trace of the joining together.

PROTECTION SHEET

A soft, two way stretch waterproof and washable cover stitched to the centre section of the mattress, ensures protection against unwanted mattress stains without affecting the surface comfort of the mattress.

“PRESSURE POINT CARE” HOSPITAL MATTRESS

Specially designed high quality “slow recovery” urethane mattress covered in a waterproof and washable cover for hospital use.

SLUMBERCARE FULLY FITTED PROTECTION SHEET

Specially designed to “Health Care Standards” to provide the option of a traditional mattress comfort level with the benefits of a waterproof and washable, fully removable cover. Ideal for the purpose of aged care.

The zip fastening on the fully fitted protection sheet has been fitted to “Health Care Industry Specifications” to allow easy removal of the protective cover from the mattress.

SlumberCare Commercial Range

Stuart's House of Bedding specialises in the manufacture of quality beds and mattresses, designed specifically to handle the rigors and heavy duty requirements of the hospitality industry. The commercial range of mattresses and ensembles caters for all requirements from the very basic needs to the luxurious.

Delivery in the Perth Metropolitan area or a nominated carrier is provided at no charge.

All beds and mattresses are **packaged** in strong polythene bags for trouble free transport.

FEATURES INCLUDED IN THE HOTEL/MOTEL RANGE ARE:
Choice of Compu-Tec Support System, Profile Coil Support System, Cosyflex, Double Posture Springing and Low Profile Spring Units, all built to international standards, for better comfort and support.

Premium grade and high resilience foam support pads which ensures ongoing comfort.

Edge support for strength to the outer edge of the mattress.

Peace of mind **Guarantee**.

Health Guard quilting foam providing protection for asthma and allergy sufferers.

Fire Retardant fabric to mattress and base covers.

Choice of **Castors or Glydes**.

Platform or Sprung bases.

SLUMBERCARE 5 STAR COMMERCIAL HOTEL/MOTEL

A premium orthopaedic bed with a high resilient support layer, convoluted foam comfort layers, deep needled quilting and full edge support, "No Roll Out". Allergy free.

4 STAR COMMERCIAL HOTEL/MOTEL

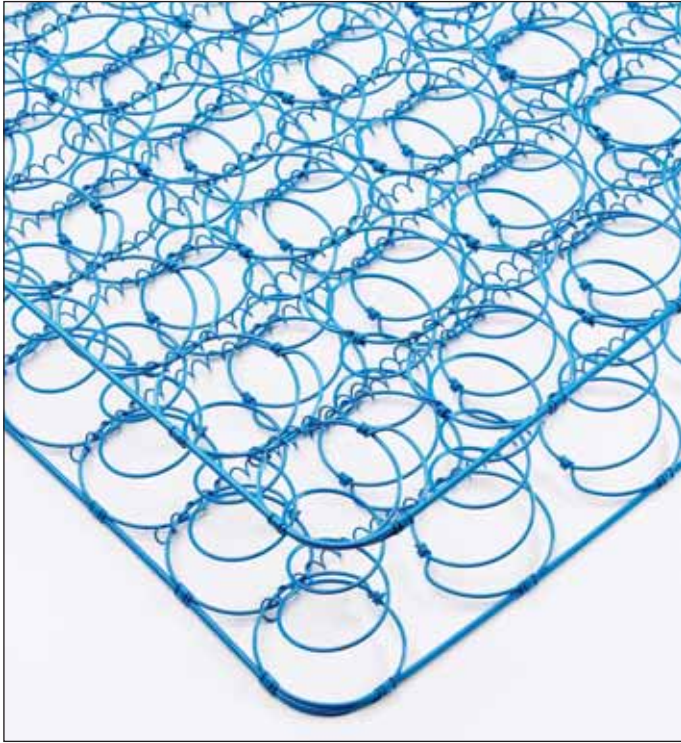

A sturdy and comfortable bed with thick layers of high resilient foam, deep needle quilting and full edge support, "No Roll Out". Allergy free.

3 STAR COMMERCIAL HOTEL/MOTEL

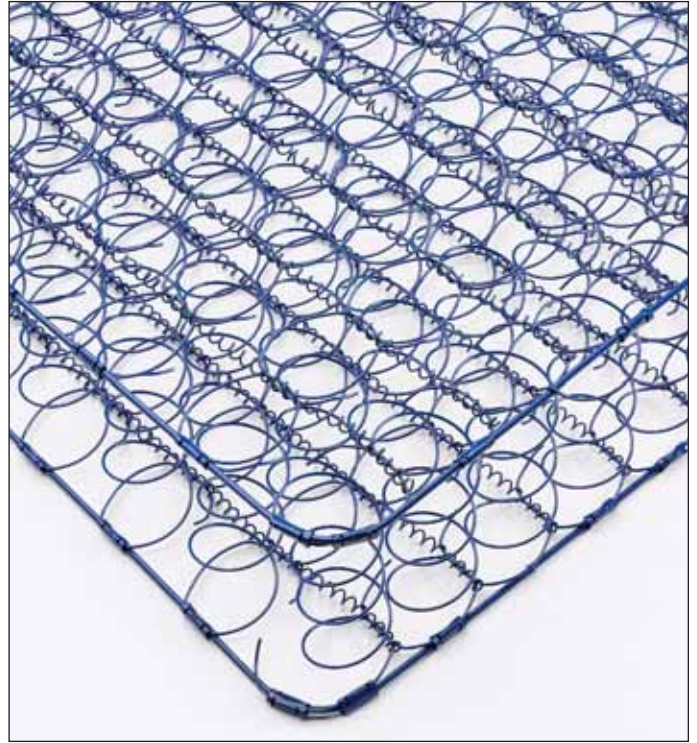

A comfortable bed with edge support for "No Roll Out". Allergy free.

SlumberCare Support Systems

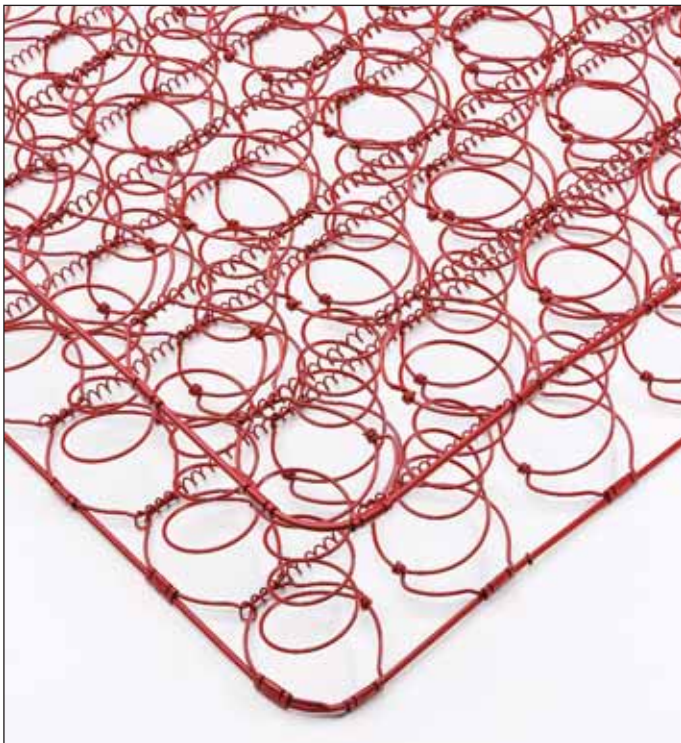

COMPU-TEC - The Compu-tec Spring System is a highly resilient support system. Its robust qualities will ensure that the sleeper will receive unequalled support with no roll out. (Also available in low Profile springs).

SPRING COUNT		DOUBLE	312
SINGLE	216	QUEEN	390
KING SINGLE	260	KING	468

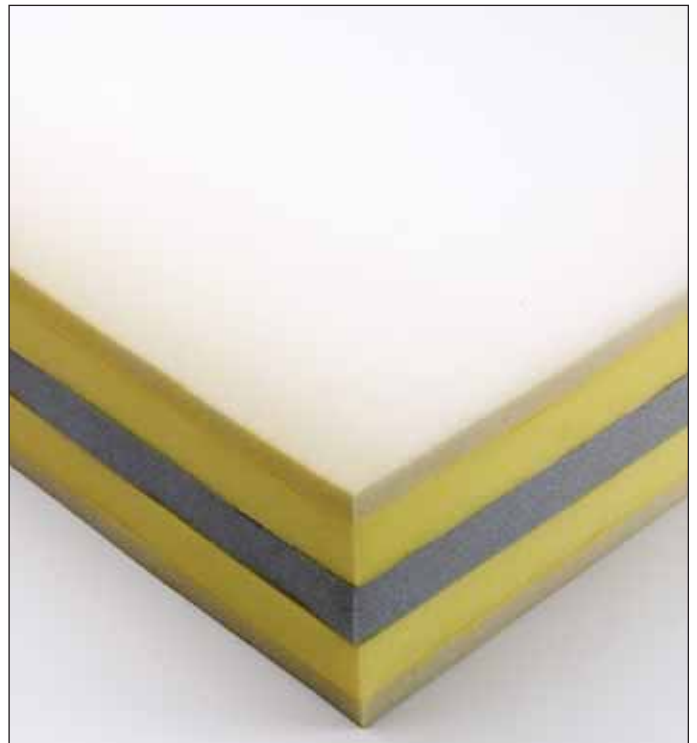

PROFILE COIL - Its contour designed head to toe Helicals work to minimise partner disturbance. The Profile Coil Spring System uses a lighter gauge wire combined with a higher spring count to achieve a firm, superior support.

SPRING COUNT		DOUBLE	675
SINGLE	405	QUEEN	725
KING SINGLE	493	KING	870

6 TURN OFFSET - The 6 Turn Offset combines the benefit of a high gauge wire with a contouring offset head to give a medium - firm support and high resilience qualities.

SPRING COUNT		DOUBLE	330
SINGLE	198	QUEEN	384
KING SINGLE	264	KING	432

URETHANE - Available in 3 and 5 core designs. These urethane cores provide firm internal support with varying degrees of comfort provided by the gentler layers of urethane laminated on either side of the high resilient core.

SlumberCare Support Systems

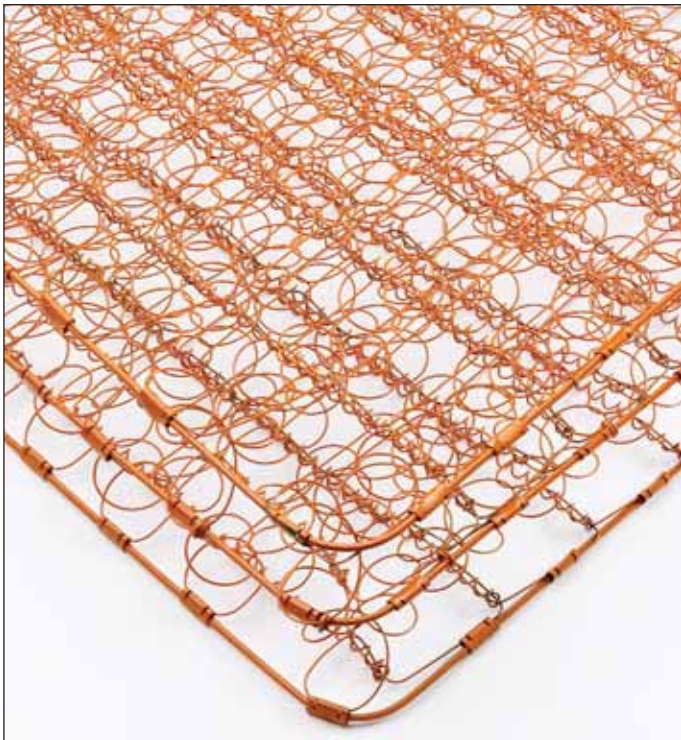

COSY-FLEX - The Cosy-flex Spring System provides a gentle continuous coil support for a luxurious feel and minimal partner disturbance.

SPRING COUNT		DOUBLE	496
SINGLE	297	QUEEN	578
KING SINGLE	374	KING	714

POCKET SPRING - Individually encased, (pocketed) springs that work to support your individual body shape whilst minimising partner disturbance.

SPRING COUNT		DOUBLE	570
SINGLE	360	QUEEN	704
KING SINGLE	448	KING	864

DOUBLE POSTURE - Dual continuous coil spring units offering the advantages of continuous coil combined with spring on spring support. The shock absorption effect of the lower spring unit reduces the pressure placed on the spring unit directly supporting the sleeper.

SPRING COUNT		DOUBLE	972
SINGLE	648	QUEEN	1080
KING SINGLE	756	KING	1188

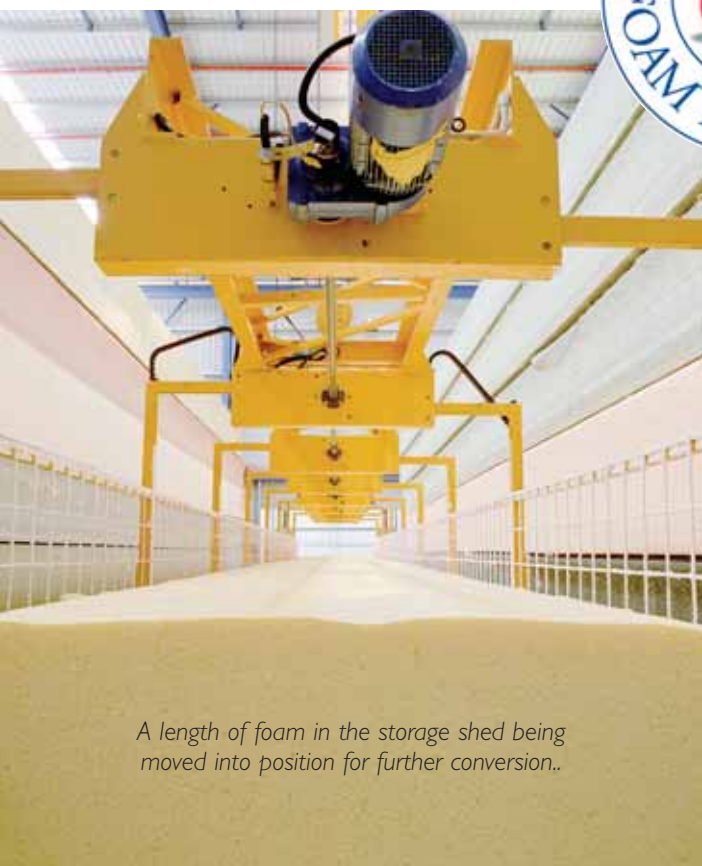

NATURAL LATEX - A 100% natural product, latex is allergy free, highly resilient and offers a completely unique feel and support. The solid core of latex also stops transition of movement from one partner to the other for arguably the ultimate in low partner disturbance.

All Joyce foam is tested to ensure it conforms to AS2281 for density and hardness.

A length of foam moving along the conveyor belt.

A length of foam in the storage shed being moved into position for further conversion..

Joyce foam products

Joyce Comfort Foam

Joyce Foam Products is an Australian owned and operated manufacturer of high quality polyurethane foams.

With brand names such as Active Comfort, Premium Comfort, Ultimate Comfort, Regal Comfort and Indulgence Comfort, Joyce Foam Products is the first choice of bedding manufacturers.

With a history spanning over 115 years, Joyce offers the best in innovative foam technology and expertise.

Joyce Foam Products is proud to support Stuarts House of Bedding with the supply of quality high density foam grades.

Joyce Comfort Foam with HealthGuard. During 1998 Joyce foam products introduced a new level of dustmite protection with the introduction of Joyce Comfort Foam with HealthGuard.

HealthGuard™ is an environmentally friendly solution for allergy and asthma sufferers or anyone concerned with living in a healthy environment.

Healthguard protects against Dustmites, moulds and bacteria.

Luxurious Covers - Tickings

SlumberCare carefully select covers from all over the world. It is important to impact different “feels”, different “looks” and different qualities. SlumberCare uses covers from the U.S.A., China, Belgium, Indonesia, Korea, India, Pakistan, Spain, Italy, South Africa, as well as many Australian lines.

Each country has its own “hand writing” which gives the consumer the greatest choice in quality and prices.

Types of materials used include:

- Jacquard Damask
- Woven Damasks
- Cotton Chintz
- Santeens
- Standard Cottons
- Jersey Prints
- Flocks
- Knitted Damasks

SlumberCare Electric Beds

THE ADJUST-A-PAEDIC ELECTRICAL BED is designed to give support and comfort whilst providing freedom of movement and multiple resting positions for those who require them.

The Adjust-A-Paedic electrical bed mechanism features a sturdy steel frame housed in an upholstered timber casing for a tidy, well presented bed. The European posture slats flex to give additional comfort and are adjustable in the centre so they can be made firmer or softer. The control pad allows the back and leg sections to be adjusted up or down separately as well as in conjunction with each other.

THE ADJUST-A-PAEDIC IS AVAILABLE IN A VARIETY OF SIZES

- 77/203cm - 3/4 long single
- 92/203cm - long single
- 107/203cm - king single
- 153/203cm - queen bed with separate mechanisms
- 183/203cm - king bed with separate mechanisms

SlumberCare offer the choice of a natural latex mattress, or a Compu-tec™ inner spring mattress for a comfortable sleeping surface.

SlumberCare
YOUR FIRST CHOICE FOR QUALITY BEDDING

Different Beds

SlumberCare is very proud to have received the award for excellence in a sleep set as presented by the FIAA (Furniture Industry Association of Australia) numerous times in recent years.

“A CLASS OF ITS OWN”

Combines a luxury removable pillowtop with two unique support mattresses allowing customers to choose their own individual support and comfort. Winner of the Award for Excellence in a Sleep Set 2002/3 FIAA Awards.

DRAWER BASES

SlumberCare manufacture drawer bases in every size and upholstered to match your choice of mattress. Drawer base beds allow people to maximise storage space in their homes whilst providing a firm platform of support to the mattress.

SPECIAL SIZE MATTRESSES SlumberCare also manufacture a wide variety of special size mattresses. In fact there is no size or shape we can not or will not make.

CARAVAN MATTRESS

Made to order to concur with the size required with or without the corners recessed.

HOSPITAL MATTRESS

Used by many hospitals around Australia. The mattresses are built to the specification required by the hospital.

COT MATTRESS

There are 14 different sizes of cots in Australia. We recommend you measure your cot before ordering a mattress.

SlumberCare Bed Bases

THE SLUMBERCARE TRUNDLE BED consists of a king single mattress supported by a sturdy timber base upholstered in machine fabric. The trundle section is a wide single spring foundation with mattress comfort layers to provide a comfortable sleeping surface. The trundle bed is an ideal solution for the need of a spare bed in a limited space.

The trundle base is also available in standard single and king single. This base can be used to directly support a mattress providing another option for sleep overs.

**TIMBER
PLATFORM FOUNDATION**

MATCHING ENSEMBLE BASES ARE AVAILABLE IN A CHOICE OF DESIGNS

Sturdy Timber Platform Foundation for firm support and minimised partner disturbance.

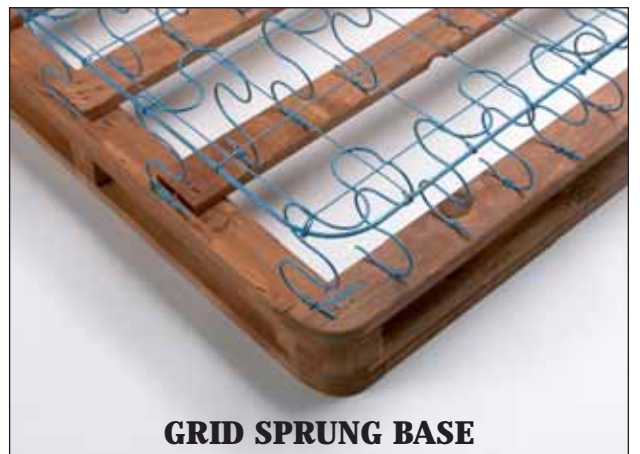

Bonnell Sprung Bases for a gentle contouring support making the bed considerably softer.

Grid Sprung Base for a firm but luxurious support.

All bases are available in standard 250mm depth and low profile 190mm depth (before upholstering).

BONNELL SPRUNG BASE

GRID SPRUNG BASE

YOUR CHOICE OF CASTORS

SlumberCare beds come with a choice of castors or glydes (ideal for timber or tiled floors) and in a range of heights to easily allow you to choose the bed height suitable for you.

The Princess Margaret Hospital For Children

Linda Gardiner presenting a cheque to Vern Reid of Princess Margaret Hospital For Children.

Leslie Cooper (Princess Margaret Hospital For Children) presenting a "thank you" plaque to Stuart Gardiner.

Linda and Stuart Gardiner have three children, Brooke, Nicole and Brett. In their junior years the three children had numerous visits to Princess Margaret Hospital for various ailments. The treatment and service they received from Princess Margaret Hospital For Children was unparalleled. At the time Linda and Stuart could only say "thankyou for your help"

When SlumberCare was born, Stuart and Linda made a decision to donate part proceeds of every sale to Princess Margaret Hospital. This policy has continued, with over \$100,000 having been donated or promised to be donated.

SlumberCare
YOUR FIRST CHOICE FOR QUALITY BEDDING

SlumberCare Accessories
