Product codes with a 260 prefix are available in Duralloy® with RapidCure™ technology.

OUR PRODUCTS

Duralloy® is an ideal choice for architectural residential fittings such as aluminium windows, doors, balustrades, fences, as well as interior items and other metal substrates. Supported by a 10 year durability warranty* on architectural aluminium for BCA Class 1 and Class 10 residential projects, when applied by a Dulux® Registered Applicator.

For an added touch of class, Precious® is an ideal choice for architectural residential fittings such as aluminium windows, doors, balustrades, fences, as well as interior items and other metal substrates. Supported by a 10 year durability warranty* on architectural aluminium for BCA Class 1 and Class 10 residential projects, when applied by a Dulux® Registered Applicator.

Duratec® delivers superior gloss and colour retention when compared with standard polyester powder coatings. It has been developed for use on architectural aluminium including window and door frames, panel work and other exterior metal features and is supported by a 20 year durability warranty* when applied by a Dulux® Registered Applicator.

Alphatec® includes a range of fun, bright colours ideal for interior items including electrical cabinets, interior fit-out, industrial design and metal consumer products. Where colour retention is paramount, we recommend our Duratec® Intensity® range of exterior durable brights.

* Subject to the terms and conditions of the relevant product warranty. Please contact your local Dulux representative for more details.

POWDER & INDUSTRIAL COATINGS

COLOUR SELECTOR

The Dulux® Colour Selector showcases a wide range of our most popular colours, specially selected to inspire you and your design.

To view our full range of standard colours visit duluxpowders.com.au

Specification made easy

Specification of powder coating finishes on architectural aluminium and other metal substrates can be a complex process and the following items should be considered:

- What is the most appropriate product for your project
- Does the product offer a genuine performance warranty
- What assurance is there the coating is applied correctly
- How do you ensure that your specification is not misinterpreted

Selecting your colours

Some colours may share the same colour name but be entirely different. To avoid disappointment when choosing colour, remember to specify as follows:

- Specify the Dulux® product name and code
- Nominate the required performance standard
- To be applied by a Dulux® Registered Applicator
- Specify the durability warranty required

ELECTRO™

With an anodised look, Electro™ is cleverly designed to subtly change in appearance as light conditions alter throughout the day. With our advanced polyester resin technology, Electro™ is supported by a 20 year durability warranty*, exceeding the performance requirements set out in the internationally recognised AAMA 2604-10 standard.

- High rise commercial projects
- Commercial & residential developments irrespective of the building height and in most environments
- Developments further than 10 metres from salt water
- Achieves AAMA 2604-10 performance standard
- Supported by a 20 year durability warranty* when applied by a Dulux® Registered Applicator

Colors displayed on this color card are a guide only and have been matched as close as possible to Interpon production standards under daylight conditions. Due to the nature of the printing process some degree of color and gloss level variation may occur. Where more than one finish is available product color may vary. We recommend that you use production line prepared samples for final color selection or approval.

Most gloss finishes on this card are available in EC technology as Made to Order MiniB.

Living Colors

People are driven by emotion – and color elicits different emotions in people. As the world's largest coatings company, no other company has more experience in color trends than AkzoNobel. Home to the Aesthetics Centre, our in-house color and design experts anticipate and predict movements in trends that affect color and coating choices for architectural applications. We have drawn on the knowledge of our global Aesthetics Centre, along with our own Australian insights, to produce this Residential and Industrial Powder Coatings Collection - Living Colors.

The Interpon Range

Interpon TC

Interpon TC is a durable powder coating designed to meet the specific needs of the Industrial and General Trade Coater markets. The Interpon TC range of powder coatings feature higher transfer efficiency, excellent coverage and high levels of damage resistance. Interpon TC is available in an extensive range of brighter colors, ripples, textures, and special effect powders.

Interpon D1000

Interpon D1000 is a high durable powder coating developed on in-house resin technology providing an ideal finish for all external applications. **Interpon D1000** offers the applicator excellent application performance with superior mileage, high powder utilisation and faster curing, making it the most versatile and best performing product in its class.

Interpon D1000 Excel™

Interpon D1000 Excel™ has been developed for application over porous substrates, such as hot-dipped galvanised (HDG) steel and castings, providing greater application tolerance and improved final film appearance. **Interpon D1000 Excel™** is also suitable for aluminium and steel substrates.

Interpon D Approved Applicators

AkzoNobel has developed the Interpon D Approved Applicators Network to support the Interpon D Global Warranty Program. This program is designed to ensure the Interpon powder coating you choose is applied correctly, meeting Interpon Powder Coatings warranty requirements to local and international standards. To view all Interpon D Approved Applicators please **visit www.specifyinterpon.com.au**.

For more information or to become an Interpon D approved applicator please speak with your Interpon technical representative.

Color Freedom

AkzoNobel values the importance of color and finish in your design and understands that color expression is an extension of your project. Why not take advantage of our made-to-order color service. For smaller projects down to 20kg, **Interpon MiniB™** and **Interpon MiniB™ Micro** provides fast service on small batch made-to-order colors that are specific to your needs. Some conditions do apply such as choice of color and product. Please contact the Interpon Customer Care Team for additional advice.

How to Specify Interpon Powder Coatings

Once you have chosen **Interpon** Powder Coatings for your project, it's important to use the correct product. So we make specifying **Interpon** powder coatings easy. Simply:

- a.** Nominate the **Interpon** product. e.g. **Interpon D1000**.
- b.** Nominate the color, finish and product code. e.g. Anodic Natural Matt GY235A.

To find your nearest **Interpon** applicator, please contact your **Interpon** representative or the **Interpon** Customer Care Team.
